1 Introduction

This manual provides instructions for end users of the Rikugan frontend web application. The application is designed for team management, task assignment, notifications, and user profile management.

2 Getting Started

2.1 Accessing the Website

Open your web browser and navigate to the deployed URL or run the application locally using the provided instructions in the README.

2.2 Login and Registration

- **Register:** Click on the Register link and fill in your details to create a new account.
- **Login:** Enter your credentials on the login page to access your dashboard.

3 Main Features

3.1 Sidebar Navigation

The sidebar provides quick access to all main sections:

- Dashboard
- Team Management
- Task Management
- Notifications
- Profile
- Theme Toggle (Light/Dark)
- Logout

3.2 Dashboard

- View an overview of your team, tasks, and recent activity.
- Access quick links to other sections.

3.3 Team Management

- View your current team, its members, and license status.
- Create a new team if you are not part of one.
- Add or remove team members (if you have permission).
- Edit team information and deactivate the team if needed.

3.4 Task Management

- View all tasks assigned to your team.
- Create, assign, and update tasks (if you have permission).
- Track task progress and completion.

3.5 Notifications

- View all notifications related to your account and team.
- Filter notifications by unread status.
- Mark notifications as read or delete them.
- Use the search bar to find specific notifications.

3.6 User Profile

- Click your avatar or username in the sidebar to view and edit your profile.
- Update your email, password, and other personal information.

3.7 Theme Toggle

Switch between light and dark mode using the theme toggle button in the sidebar.

3.8 Logout

Click the Logout button in the sidebar to securely sign out of your account.

4 Tips and Troubleshooting

- For best experience, use a modern web browser (Chrome, Firefox, Edge).
- If you encounter issues, try refreshing the page or clearing your browser cache.
- For further help, contact your system administrator or support team.

5 Contact and Support

For questions or support, refer to the README or contact the Rikugan development team.
